The May 4th Task Force would like to take this opportunity to publicly denounce recent actions by certain organizations. These actions include the flag-burning incident which disrupted a peaceful rally sponsored by the Kent State Committee Against Registration and the Draft (CARD); the regrettable incident in which a pie was thrown at a well-known elderly Cleveland news commentator, Dorothy Fuldheim; and the recent disruption of a Kent State classroom. We feel that all of these actions are counterproductive. Additionally, we would like to emphasize that we have no intentions to further oppose the new gym.

We would like to say at this time that any individuals or groups that support the work of the May 4th Task Force are welcome and encouraged to join the thousands who will gather here peacefully on May 4, 1980. We are planning for a peaceful and dignified commemoration and rally.

We further request the Kent State University administration to cooperate and take no actions to disrupt our legitimate and sincere commemorative activities of May 1-4, 1980.

On behalf of the May 4th Task Force, our non-sectarian student organization at Kent State University, I would like to submit the enclosed and following information to you for publication. This information is in regard to the tenth anniversary commemorative program, sponsored by the May 4th Task Force, which will be held at Kent State on May 4, 1980.

*May 4th Task Force -- P.O. Box 533, Kent, Ohio 44240
The May 4th Task Force of Kent State University proposes that May 4th be recognized as National Students' Day.

We make this recommendation in consideration of the following facts:

--May 4, 1970, is the most widely recognized of the many shooting incidents in which students were killed unjustly on American campuses.

--The May 4th killings have been opposed publicly and effectively during the past decade--both in the courts and on college campuses--by families of the four slain and students at hundreds of other campuses, as well as Kent State students.

--May 4, 1970, is the date in which the most American students were slain in the same incident.

--The May 4th shootings represent the only such incident in which women were slain--Allison Krause and Sandra Scheuer.

--The May 4th incident, which occurred during the nationwide student strike in opposition to the U.S. invasion of Cambodia, is recognized as a symbol of the effectiveness and legitimacy of American student activism in pursuit of positive social change.

It is therefore appropriate that May 4th be recognized as National Students' Day in the United States.

(1) This tribute would recognize the contributions of American students to history and society.

(2) Such a tribute would commemorate the deaths of American students who were unjustly killed while opposing war or working for civil rights. This refers to students killed during the past two decades, including:

* Andrew Goodman, Michael Schwerner--Mississippi, June 1964.
* Samuel Hammond, Delano Middleton, Henry Smith--Orangeburg, South Carolina, February 1968.
* James Rector--Berkeley, California, May 1969.
* Kevin Moran--Santa Barbara, California, April 1970.
* Allison Krause, Sandra Scheuer, Jeffrey Miller, William Schroeder--Kent State University, May 1970.
* Rick Dowdell, Harry Rice--Lawrence, Kansas, July 1970.
* Randy Anderson--University of Wisconsin-Milwaukee.
* Students killed at Southern University in Baton Rouge, Louisiana, and at Tonazin in Santa Fe, New Mexico.

We have documented approximately 20 students, including the four at Kent State, who died for exercising their civil rights.

(3) This tribute would reaffirm the need for continued student activity to promote positive social change in the 1980's and thereafter.

We encourage the adoption and/or the endorsement of this proposal by student governments, university administrations, state and national student associations, and state and national legislatures.

This proposal has the endorsement of the United States Student Association.
After the six-month anti-gym protests of 1977, the "Basi Committee" issued many significant recommendations to KSU president Brage Golding concerning May 4th-related issues. These recommendations sought to:

1) seek to increase people's awareness and sensitivity to the events of May 4, 1970
2) institute certain life-enhancing programs and measures that would, at least partially, compensate for the unnecessary and unwarranted loss of life and incapacitation that resulted
3) deepen people's understanding of the particular events and milieu so that such a tragedy may not happen again anywhere.

These recommendations have yet to be implemented in many important regards. We urge the KSU administration to therefore implement the following relevant recommendations of the Basi committee:

1) Prepare a descriptive leaflet (brochure) about May 4, 1970, events for distribution to visitors
2) Close Prentice Hall parking lot to general parking, set aside some area for short-term parking (non-metered) for visitors to site, handicap and maintenance vehicles
3) Place sign, including a map of the site and descriptive brochures about May 4, 1970, events, at the entrance of the parking area
4) Erect cordons with small individual markers
5) Remove the four saplings planted in the line of fire
6) Undergraduate and graduate scholarships in memory of the events of May 4, 1970
7) May 4 service to involve all constituents of the Kent community ... "A Celebration of Reconciliation"

After the wrongful 1977 decision to build the gym on the historic site of the 1970 shootings, the improper rejection of the Segal sculpture in 1978, and the mistaken attempt to construct a monumental arch in 1980 (to commemorate a "military victory"?), when will the KSU administration properly acknowledge the truth and significance of the historic Kent State massacre of May 4, 1970, in the spirit of "reconciliation"?

MAY 4TH TASK FORCE PROPOSAL IN FAVOR OF A PROPER MEMORIAL
DEDICATED TO ALLISON KRAUSE, JEFFREY MILLER, SANDRA SCHEÜER AND
WILLIAM SCHROEDER.

The May 4th Task Force urges the Kent State University administration
to join us in seeking to facilitate the establishment of an
appropriate and meaningful memorial that is acceptable to the
entire university community. We further insist that this memorial
must be dedicated to the four Kent State students who were
gunned down unjustly on our campus on May 4, 1970.

The May 4th Task Force would like to take this opportunity to publicly denounce recent actions by certain organizations.
