On Monday, the 12th of May, Bobby Seale University (alas: C W Post Centre) will reopen by a vote of 21-0 the faculty council (on Friday May 8th) passes their resolution. This resolution reopens the school "but on a completely voluntary basis," For the faculty council states also that they are "in support of the national strike." This, of course, will present problems—especially where the right-wingers are concerned. They think, assaninely, that the war is good---stupid fools. But--these people (our fellow students) may make life a bit difficult. They may try to bate us into fights---Don't--keep cool. We must realize that comes Monday (and the rest of the semester) some students will be going to class---DON'T stop them physically. For you will be playing into their hands. Lastly- also remember that on Monday & Tuesday many students who support the strike might go to a class--or a classbuilding to talk to their teachers about the remainder of the semester. In any event DON'T get into a physical confronation......

WASHINGON NEWS......

Never mind what the media told you about Saturday nite in Washington. Never mind what they said about 60,000 rallying at the ellipse. Never mind what they say about student violence. Never mind what they say about a cool-headed police force & Black community indifference.

There were upwards of 100,000 at the ellipse and across the street and well up the hill toward the Wash. monument. The police simply went berserk, as they usually do in a town where you get busted for flying a kite & where they have four--count 'em--four separate uniformed police forces. Depending upon who was getting it wrprst & where, whites & Blacks who knew only first names related in the crisis like people on a first name basis.

The main rally, where old standby Dave Dellinger a rising 'red' star Jane Fonda spoke, Dave insisting that we were not in Washington to "ask" Nixon for anything, & Jane exhorting us to "love" ended early, leaving the great bulk of the crowds standing there, up in the air. About 1,000 ralliers moved well back onto the monument wall to watch an impromptu guerrilla theatre preform. Several thousand others moved to the south end of the mall to marvel at the Yippies, many of them high, do their unadorned thing in the reflecting pool. It was at this juncture that police presence, at about 4:30, became ominous for the first time. Some sixty police form the Metro squad moved in on the Yippies, busting many for indecent exposure, while 2 dozen mounted police drove the on-

SM
KUNSLTER AT HOFSTRA
by D J Cahill

"Nixon has got to realize now that you have got your shit together" Bill Kunstler told alrally Friday on the south campus of Hofstra, that also featured Rep. Allard Lowenstein & student strike leaders With flowing mane & a face drawn with the agony of defending H. Rap Brown, "public enemy #11", Kunstler called upon 'those evil men' to establish "some measure of credibility...give us some ray of hope that the changes we want will come
...overnite...something they have the power to do: send those fucking ships over there and pull those men out of those countries!"
Interrupting to cheer again & again the crowd of over 1500 heard Kunstler state that it was their "moral duty" to head—maxx off a rerun of 1933 Germany. Students were urged to "take the strike to all our brothers." There, he said, include all public & private high school students, echoing his call of earlier this week to "shut down the entire economy."

"I am fifty years old," said Kunstler raising his fist, "...let me tell you what this fist means to me. It is a hand that I would prefer to extend...but it also has the feature of this finger fpr squeezing a trigger." Kunstler declared that we are "in a peaceful revolution" but also that we "must stop being vicarious revolutionaries...stpo letting the Panthers, do the dying for us...we must all be Panthers, and I mean that in every conceivable sense...we must make it clear that we will go to the wall for what we believe. If we don't our commitment just isn't good enough"
Lowenstein,in contrast, was low-keyed, even a bit casual. He looked like a Long Island homeowner going out to mow in slacks & light grey jacket, his lawn, than a Congressman just back form a frustrating meeting of congress. Lowenstein said of Nixon's "bonner"

that they were "...the most beautiful generation yet produced in this country." Lowenstein said that debate on the constitutionality of the Cambodian adventure was limited to "thirty or forty seconds per man" & that the effort attempt to make copies of the statements to the question available to congressmen's constituents was thwarted by the majority. Lowenstein cautioned the students against violence, quoting the late Robert Kennedy who reminded them that their "job, in the words of Aeschylus, Kennedy's favorite poet, remains "to make gentle the way of the world". Lowenstein, who faces serious challenge all winter from his constituents as to whether his voting represented the community consensus, called upon students "...to work for the defeat of all of these men who support war."

RESULTS OF THE SURVEY TAKEN BY TWO MEMBERS OF THE SOCIOLOGY DEPT.
willingness to participate:
freshmen—73% Sophomore—63%
Junior—-60% Senior—-57%
Graduate—-23% Faculty—-43%
Will not at all participate:
freshmen—18% Sophomore—21%
Junior—-28% Senior—-34%
Graduate—-69% Faculty—-43%
expection of violence:
34% of general student body expected violence. 36% of the freshmen, 50% of the graduates
As for closing of the school for the strike: 71% of the students were in favor of this, and some 64% of the faculty.

This survey was carried out on Monday under the supervision of Profssers Lippman & Laudin with the help of 17 other people from Post, mostly students who jumped at the chance of some "instant sociology"
A more complete report of this study will be published later. [see info on RSA survey on pg5]
lookers back & northward. A note of comic relief was interjected here as two Nat. Guard "duce & a half" trucks, used earlier for towing water wagons to the periphery of the ellipse, rescued the Yippies & drove them jumping & shouting--"We want dope, we want dope!!"--thru adjoining streets. When queried, a Nat Guard sergeant later said he was "positive" that police would not bust anyone in a Guard truck.

Repeated rumors, all substantially the same, had your Grok reporter hustling down Constitution Av. to a reported clash at the Labor Dept. Police there were unwilling to comment on the pile of picket-type signs that they seemed to be guarding some distance from the front door. All rumors of Weathermen breaking into Constitution Av buildings are false. Bullet-proof 2-story steel overdoors were in evidence everywhere.

At 5:40 pm members of the city demonstration unit jocularly strolled to the corner of Constitution & NW 9th & opened fire with old fashioned CW guns on an ill-organized band of some four hundred protesters who described themselves as "bums". The group, lead by no one person, was made up of "Mobers" YANF'ers, & a host of un-affiliates. After throwing one bottle & 2 rocks all of which fell short of the policeman, the tired & bedraggled "bums" called the move off.

One Columbia-type butyric acid/red paint stink bomb was hurled at the door of the Injustice Dept. This brought a second, smaller barrage of gas from Patrolmen who had already removed their gas-masks & commenced laughing. Thruout all were surprising silent. Five minutes later the police boarded a DC Transit bus, waved good-bye & drove away. At 6:05 a street sweeper collected the broken bottle from the deserted street.

The local radio's account was, to say the least, startling.

A #34 route DC bus had to detour for several blocks, at approx 6:30 & through few passengers & apparently fewer reporters paid much attention this detour signalled the start of one of 3 major clashes that ran, on & off & on again, throughout the nite.

Students protesting war profiteering by the airlines, sat down & peaceably occupied K street btwn 11th & 17th Avs NW. Again the crowd was subdued. Little of the rancor one comes to expect filtered thru the open windows. As the bus struggled to turn around a good deal of CS gas did filter in & one shall carombed off the side of the bus.

Grok does not presume to state accurately the number of arrests made yesterday in the capital. Every publication of note has its own reputable & anonymous source, & the DC police have 4 or more of these depending on how you look at their report announcings. 250 arrests today, Sunday. At midnight bail rascals & strike housing officers at Howard & Georgetown Universities agreed at the rate the names of persons charged were coming in considering the listed times of arrest, some 500 had probably been arrested by then. The many early am arrests, particularly between 12:30 & 1:00 am at GWU, scene of a sanctuary curfew fiasco that police admit netted 150, were undoubtedly to be listed as Sunday arrests.

In the intervening hrs police & Nat Guard drove protesters from 16th & K to 18th & L with gas barrages that brought local residents reeling into the streets in anger & disbelief. A pitched battle was fought here, spreading to 16th & I, near the White House, where demonstrators already gassed, in an attempted sit in were trying to escape as best they could. Thus trapped they recive the worst of the nite's attacks.

RSA SURVEY--ONE OF THE FACTORS IN MONDAY'S DECISION ON RE-OPENING

Persons 'close to the administration have provided the "authentic" results as the following: 955 ballots filed, of which 755 were residents & 200 were commuters. On question one: for or against the current strike the vote was 803 for, & 125 against. On question two: whether or not to strike through Saturday the vote was 772 yes, 159 against. On question three, whether or not to strike th the end of the semester, the vote was 596 for 328 opposed. On the fourth: whether students were willing to strike if no credit was given for the spring semester: vote was 71 for 683 opposed. Fifth to accept P/F grades should strike continue brought a positive vote of 452 and 341 negative. Results of question six, according to our anonymous source, show that 445 students polled would accept their mid-term grades as final grades while 317 would not. 556 students however stated that they would accept their present grade as final where 232 found this proposal unacceptable. In response to ques. 3 of the students polled, 503 said they would accept take-home exams, 248 of them said they would not. Ques.9, perhaps the most crucial, asked whether students should be allowed to attend classes voluntarily if/and or/ in spite of the fact that a strike continues. 574 said "yes" opposing "no" votes of 347. President Payton could not be reached for comment at the time this information came into our hands
