Good afternoon welcome to the May 4th Memorial Program sponsored by the May 4th Task Force. My name is Craig Blazinski I'm the Co-Chairperson of the Task Force and we would like to thank each and everyone of you for not buying the administration temptation of taking a 4 day weekend but for showing your concern for human life by being here instead.

Before we begin the speakers today as the last of the four people holding vigil place their candles in front of the Bldg. Let us pause before listening to the symbolic ringing of the bell 4 times once each for Allison, Jeff, Sandy & Bill. Let us during a moment of silence reflect upon what the families of the victims, this university & the world lost so tragically 8 yrs ago today.

The action Golding took this past weekend exemplifies his great misunderstanding of knowledge of what took place on this Campus in May of 1970. His gross misuse of power was the same misuse of May 1970.

Besides his lack of knowledge of past events he has taken it upon himself to misinterpret the 1st Amend of the Constitution and blatantly violate the right of all individuals on this Campus. The excessive use of force can only further the tension that existed on this campus. If the admin and the past had been more responsive to the argument against the gym, and responsive to allowing students some voice, this situation would never have prevailed.

We therefore condemn Golding, the Trustees, and the State for creating an atmosphere of repression andwitching.

We therefore urge Golding to never use these undemocratic actions again and commit himself to the preservation of all constitutional rights of all people in the university community.

Remember Brothers and Sisters:

They have arrested some of us for reading aloud the 'Bill of Rights' of the U.S. Constitution. If these oppressive and manipulative tactics are permitted to prevail, they soon may also attempt to take away our papers and break our pencils.
